healthcare for everyone

allergy reliever...

...using low level light therapy

Around the world millions of people suffer from allergic rhinitis and/or hayfever. The suffering is often a lot worse in the summer months due to the presence of pollen and sufferers can become desperate to relieve the symptoms of their allergies.

The Kinetik Allergy Reliever is designed as a safe and easy way of relieving those irritating symptoms associated with allergic rhinitis - for example, watery eyes, runny nose and sneezing. It is safe, quick and easy to use and many people feel an improvement after just a few treatments.

AR1

easy relief of allergy symptoms anywhere
allergy reliever

The Kinetik Allergy Reliever uses red light therapy to suppress the cells that release histamine, thereby relieving the symptoms of hayfever and allergic rhinitis. The ergonomic design features replaceable nose probes for multi person use as well as a lanyard so the reliever can be hung round the users neck making it fully portable, it is simple and easy for the whole family to use.

our vision is

electrical health in every home

Ergonomically designed to be used anywhere, this fully portable product is surprisingly affordable and can help people across most ages and demographics.
