digital TENS pain relievers...

...an effective alternative to medication

Around the world millions of people suffer from chronic pain brought on by the stresses and strains of modern life. **TENS Digital Pain Relief** is a highly effective treatment for pain, used worldwide and recommended by sports coaches, physiotherapy departments, pain clinics, doctors and other medical practitioners.

Our Kinetik TENS Digital Pain Relievers are designed as a safe and easy way of relieving pain at home. They work by passing harmless electrical signals into the body through pads to block the body's pain signals. Secondly TENS stimulates the body to produce its own pain relieving chemicals called endorphins and our TENS Digital Pain Reliever series can be safely used in conjunction with pain relief medication.

T1relieve pain at home with the easy to use
single channel TENS digital pain reliever

This relieves pain in two ways: firstly, it blocks the body's pain signals. Secondly, TENS stimulates the body's production of endorphins – its own natural painkillers. Easy to use, this lightweight and portable unit features adjustable intensities for fast, effective and safe pain relief.

**T2**relieve pain at home with the
dual channel TENS digital pain reliever

This ergonomically designed dual channel TENS digital pain reliever has two output channels which can be adjusted independently. It has 8 mode settings to provide different pain relief and 8 output intensities to suit different parts of the body. It can also be used as massager to help the user relax.

**TH1**pain relief and warmth, combined, with the
heated TENS digital pain reliever

This unit has 2 output channels, each independently adjusted to provide different intensities and stimulations on different parts of the body. It has 12 mode settings to provide different pain relief and massage effects, 10 heat levels and output intensities to suit different parts of the body and types of pain.

**PPT 1**relief from menstrual pain wherever you are with the
period pain reliever

Period pain relief is offered by this ergonomically designed unit which is worn by the user discreetly attached to their underwear. Small enough to be carried in the handbag the Kinetik Period Pain Reliever offers fast, effective and safe pain relief from menstrual pain.

our vision is
pain relief available to everyone

Kinetik's TENS digital pain reliever range uses technology to improve customers' daily lives. Ergonomically designed to be at home wherever they are used, these products are affordable and can help people from across all ages and demographics.
